Give them a chance

Millions of people need devices to learn today's technology, some countries don't know the level of progress that we have in our mind. Do a good deed !

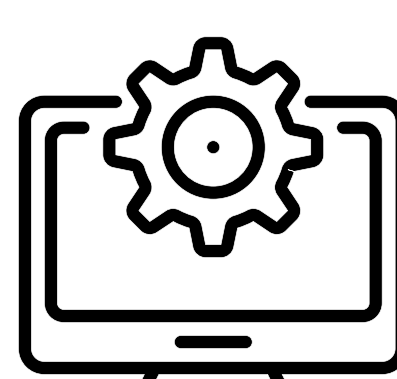

The opportunity to save millions of minds

We have been visiting academies for some time and there is a gap between academies having enough equipment and academies in

Responsive Web

Every site we create is designed and optimised to look and function just as well on mobile phones and tablets as it does on a desktop, creating a seamless experience across any device.

Content Management

To make your site accessible and easy to maintain, we use a content management system known as WordPress on all our sites, giving you unlimited control over the content of your website at all times.

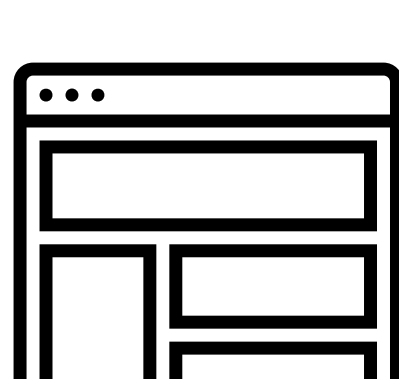

Website Optimisation

A slow loading website is harmful to its success. If your site is running slow, we can work out a plan of action to increase your website's loading time and page speed score.

Active Support

Once your project complete, we continue to be on hand to answer any questions you may have, or help with any possible issues you could run into we are just a call or email away.

Web Design

With an impeccable eye for detail, we are committed to providing knockout web design that not only looks great but is user-friendly and functional too.

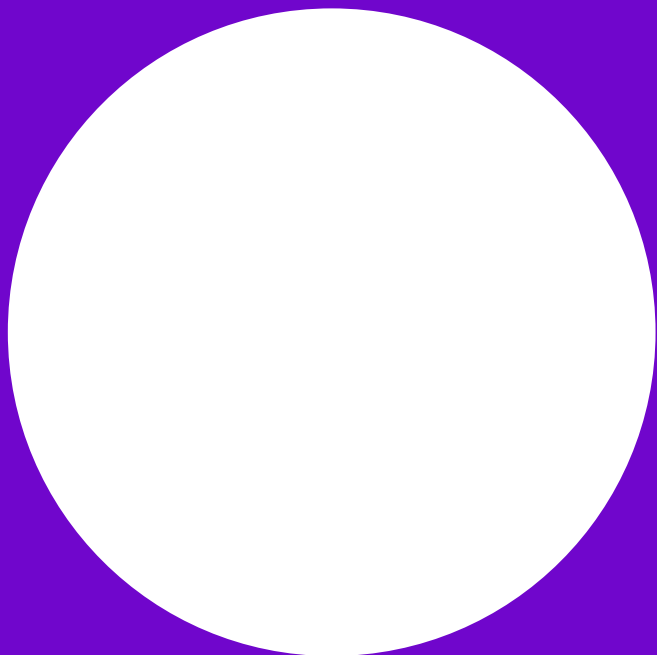

Web designer & Designer

My main focus is mobile, and user **ex-
perience**. However, I have knack for conceptualizing **innovative** print and **traditional design**.

Curriculum vitae

This project is my curriculum vitae, in a **virtual way** based on a well-known site, IKEA the famous furniture seller.

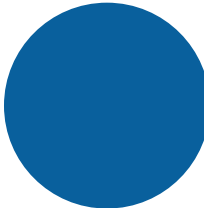

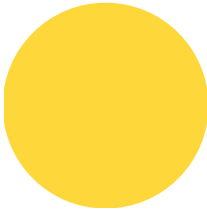

A little about Curriculum vitae

In my second year, I had to make a web site representing my curriculum vitae **based** on an extremely popular site (Amazon, Ebay, ...), for my part I took IKEA, a company selling furniture.

The logo

Colour palette

Typographie

ABCDEFGHIJKLMNOPQRSTUVWXYZ
vwxyz
abcdefghijklmnopqrstuvwxyz

Branding

I had a very clear idea of how I wanted the logo **to look like** the IKEA logo. I used the same color palette as the famous IKEA website.

Curriculum vitae

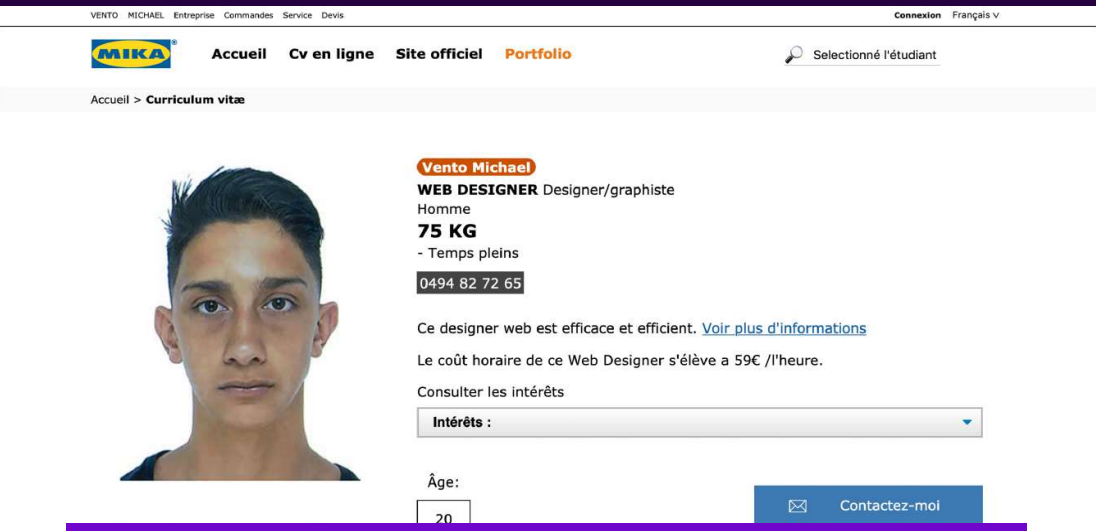

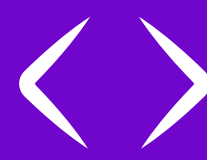

The aim of this website is to accurately **reflect the style** of the famous website (IKEA), the color palette used is the same as that of IKEA.

Something's gone **wrong**

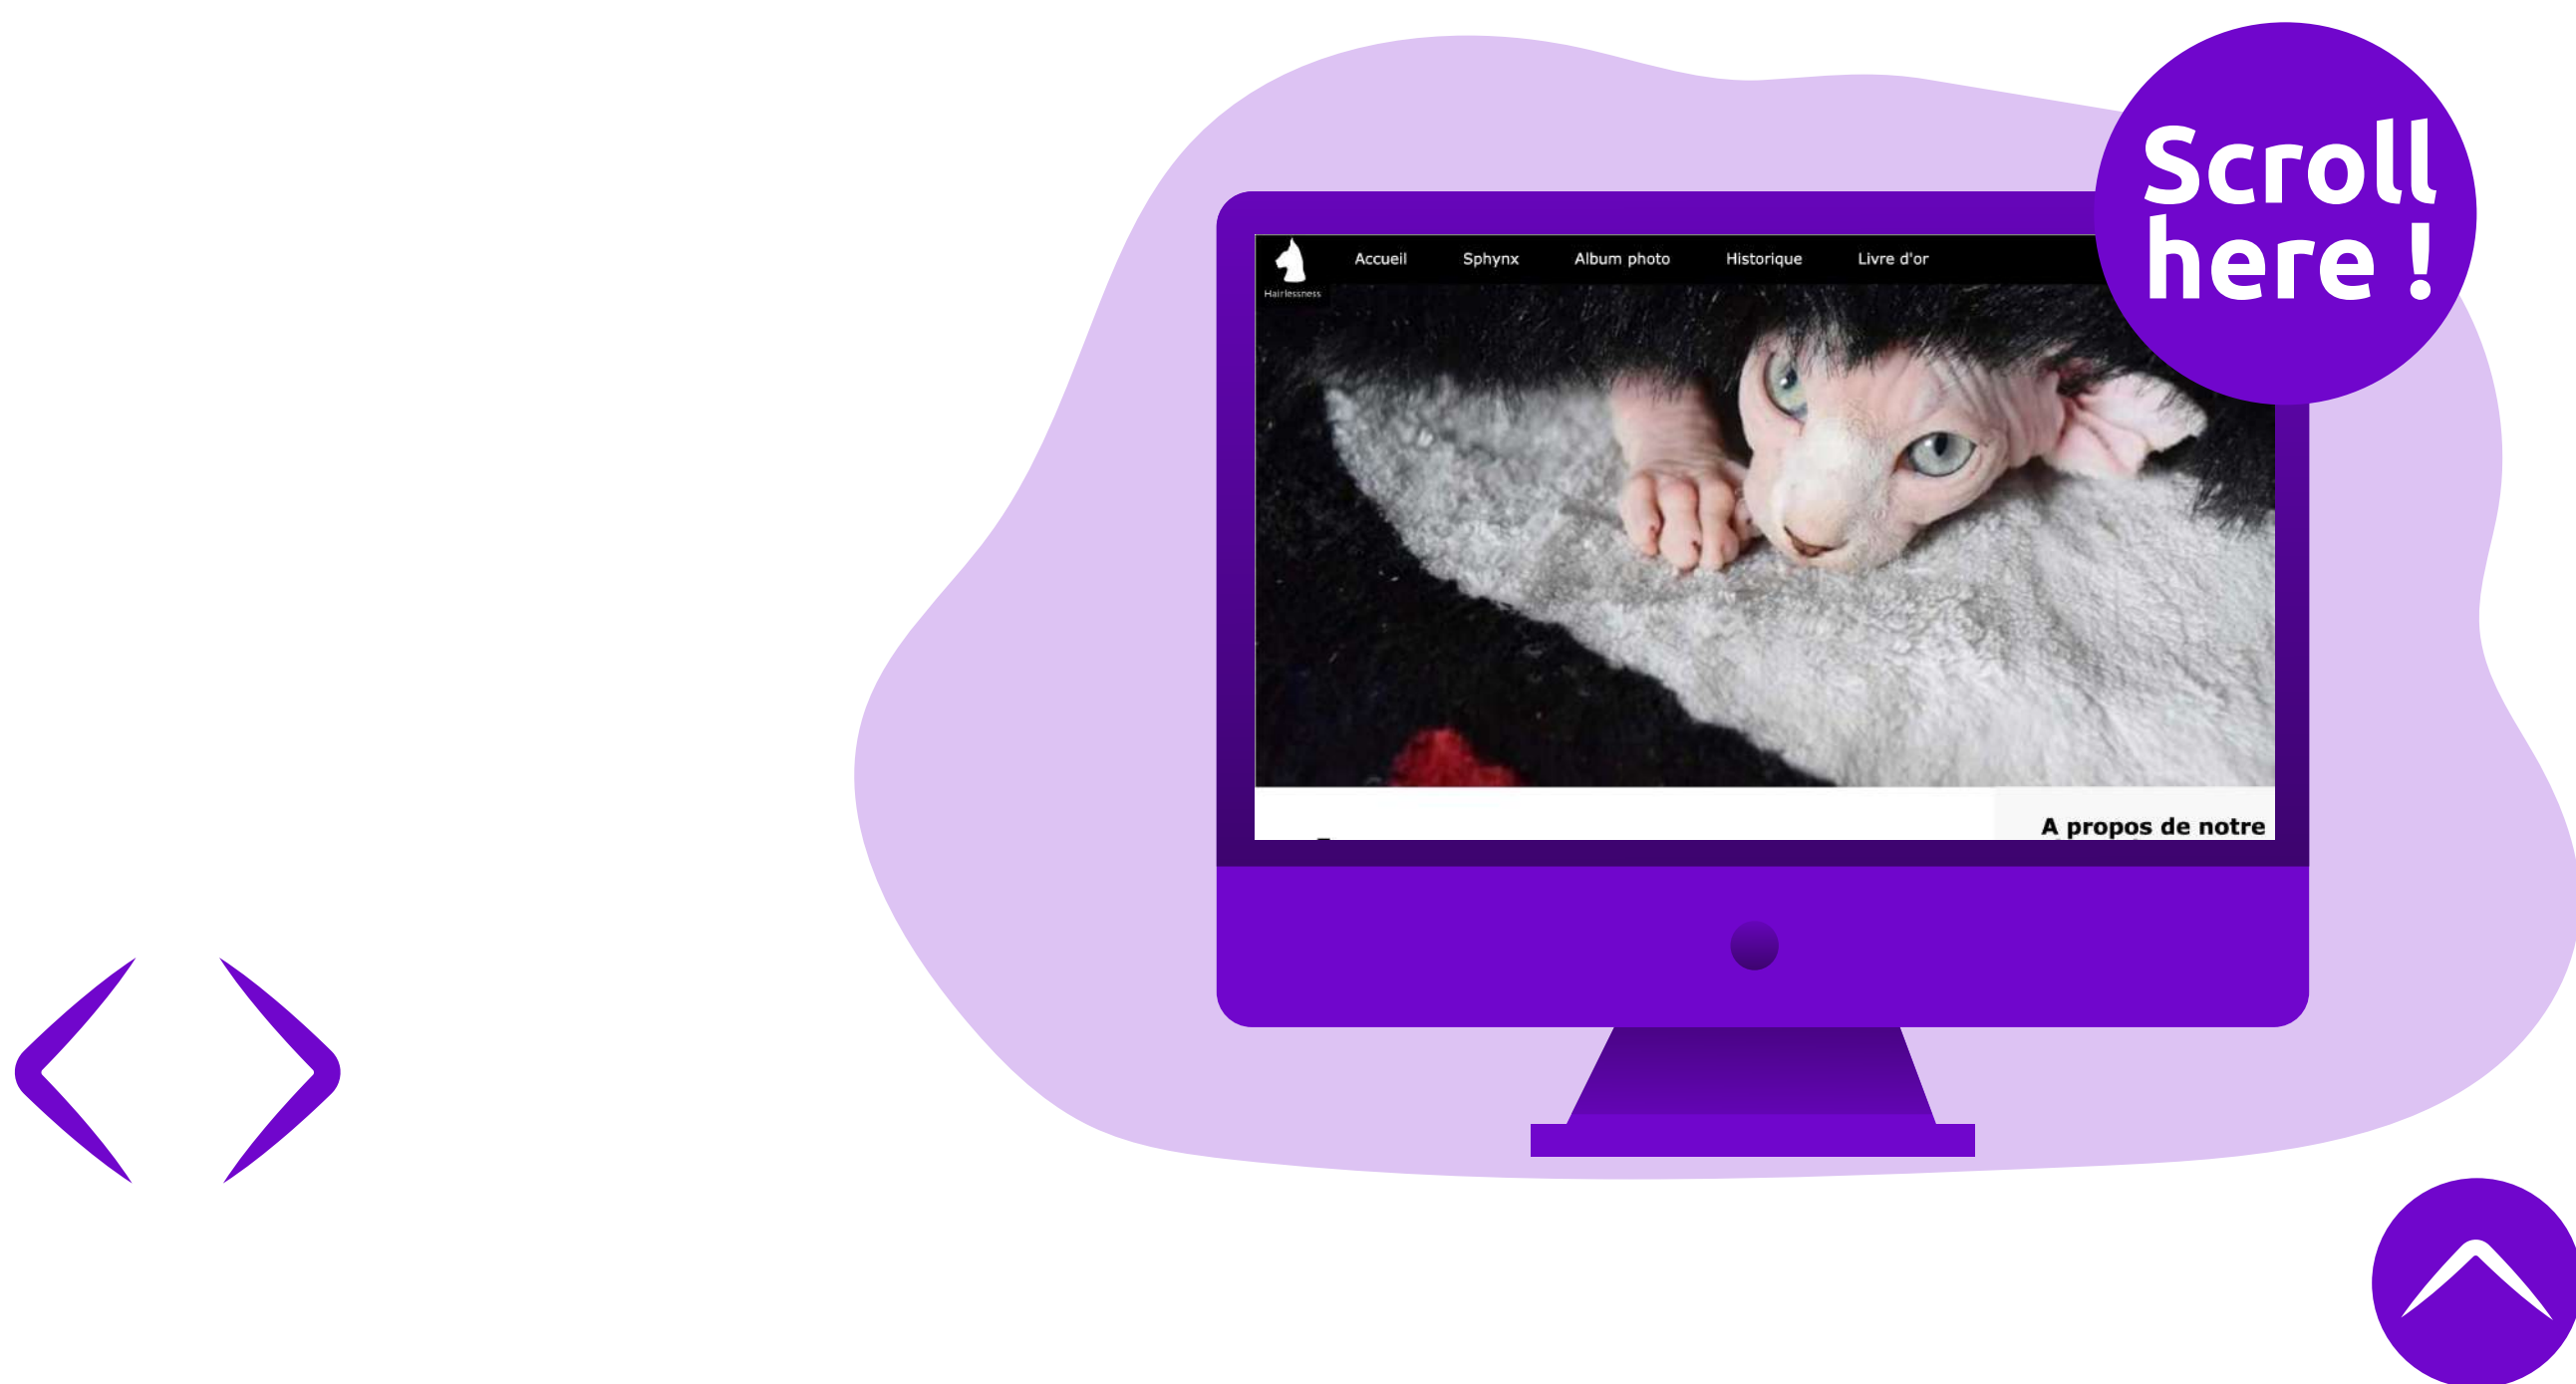

Sorry about that. **Use the menu** above
to take you where you want to go.

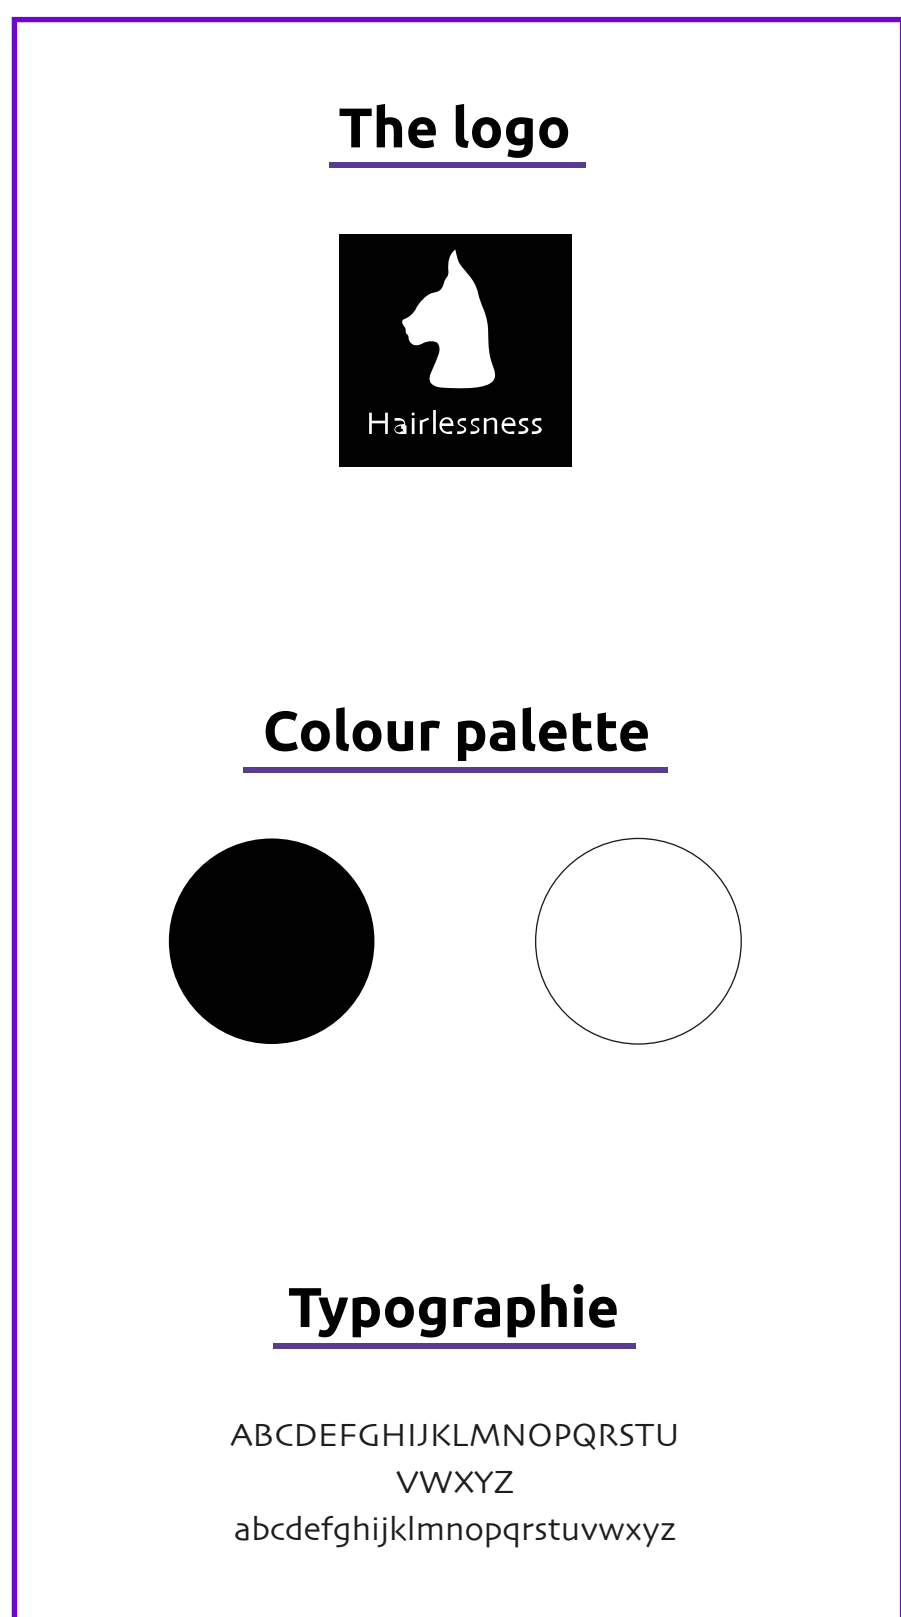

Hairlessness

This project is about a **special cattery**, selling only Sphynx (hairless cats), in very good health. These cats are very **cuddly and affectionate**.

A little about Hairlessness

A small project, this site was intended for people who wanted to **buy Sphynx** (cat) is a family cattery and honest in which **all cats are the same** there is no particularity.

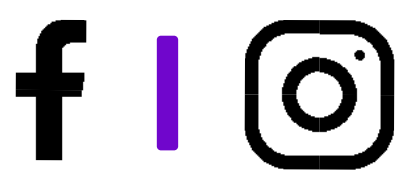

Branding

My logo idea in this cattery site was to represent **a Sphynx** because the animal sold in this site is the **hairless cats** called Sphynx. I used a very simple color palette, black and white.

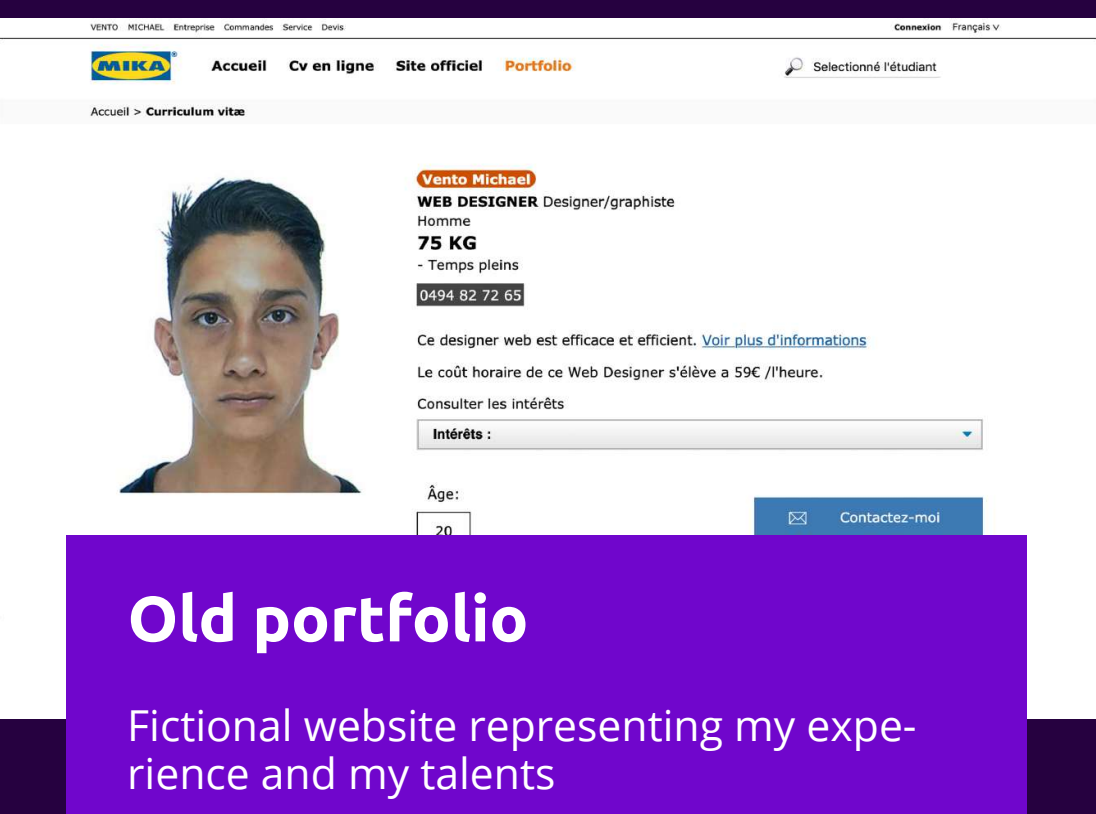

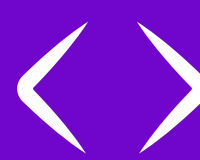

Hairlessness

The primary goal of Hairlessness is **to sell** Sphynx in excellent health, via an email system to schedule an appointment, you **will meet** his trainer and the cat in question.

Acadexchange

This project is about a website in which the **exchange** of knowledge, materials between academies.

A little about Acadexchange

A very big project, this site was **intended** for academies who wanted to pair with other academies to establish contacts, **donate** unused equipment.

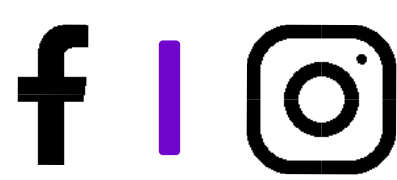

Branding

My idea of logo in this exchange site was **to represent** two students who create a bridge because their idea was to represent a **link between the students** and to keep the idea of their web "Cisco". Concerning the color palette, they are shades of blue and yellow-orange.

Acadexchange

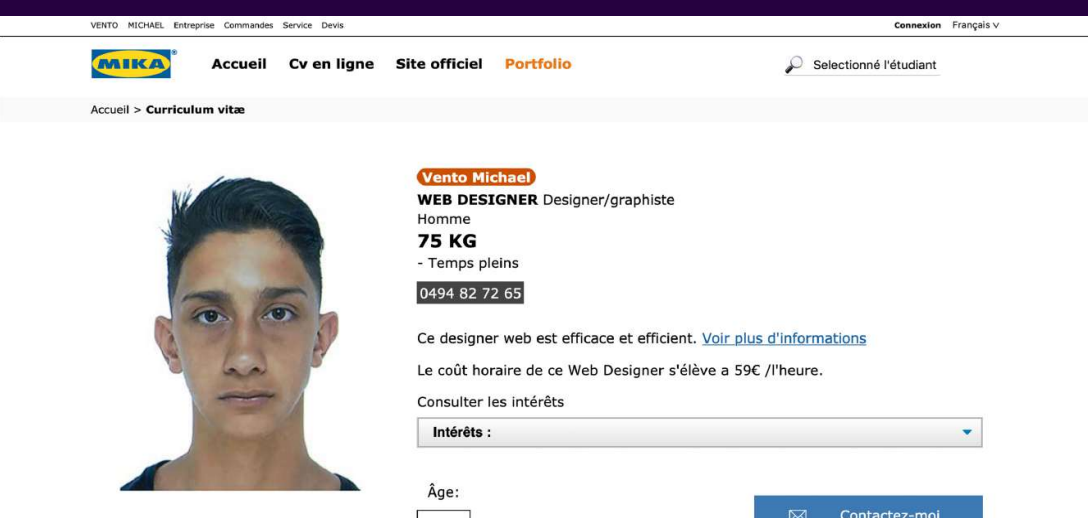

The goal of Acadexchange is to achieve twinning between academies but also **to allow those in need** to get back to the level in terms of equipment, give our equipment unused!

Old portfolio

In my second year, I realized a website **representing** my projects, myself and my skills in certain subjects.

A little about old portfolio

This old portfolio shows my skills as a web designer, it also **shows the projects** that I realized that are only fictional. For each project, you have its history and the objectives of the website.

Branding

I had a very clear idea of how I wanted the logo **to look like me**. I used a very simple color palette blue and its complementary color orange. So I created a unique icon associated with a special font.

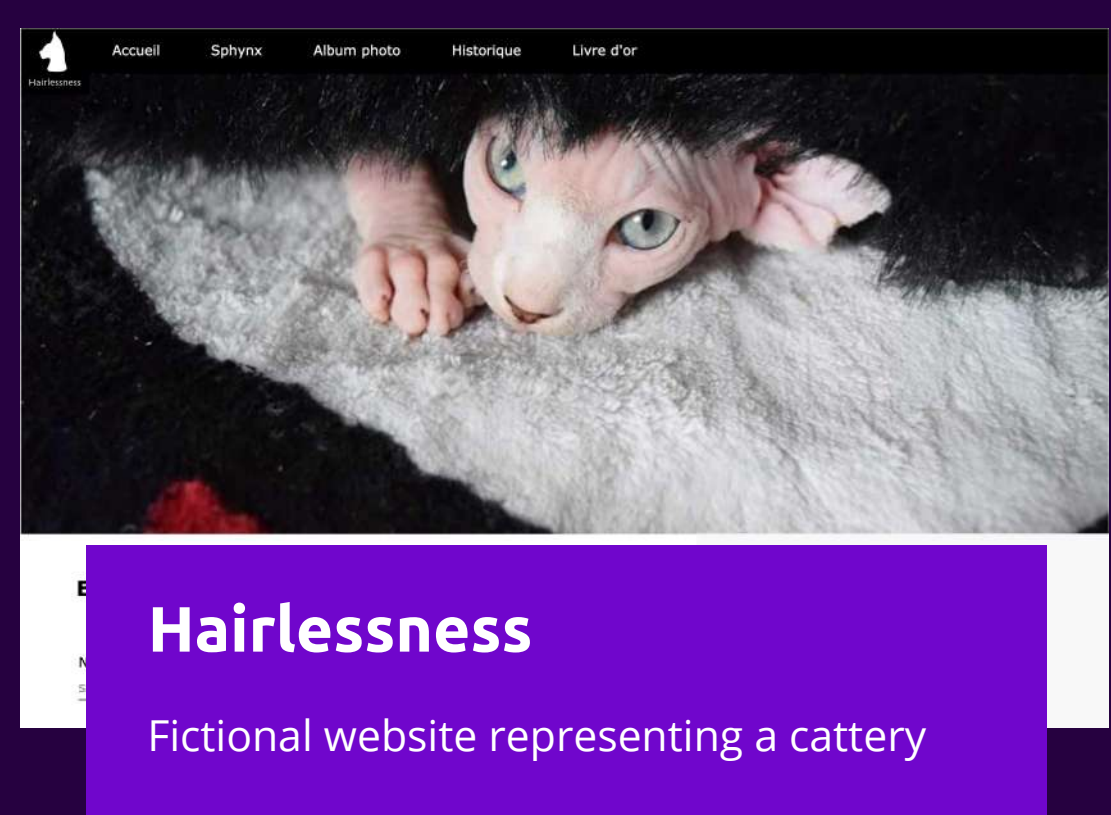

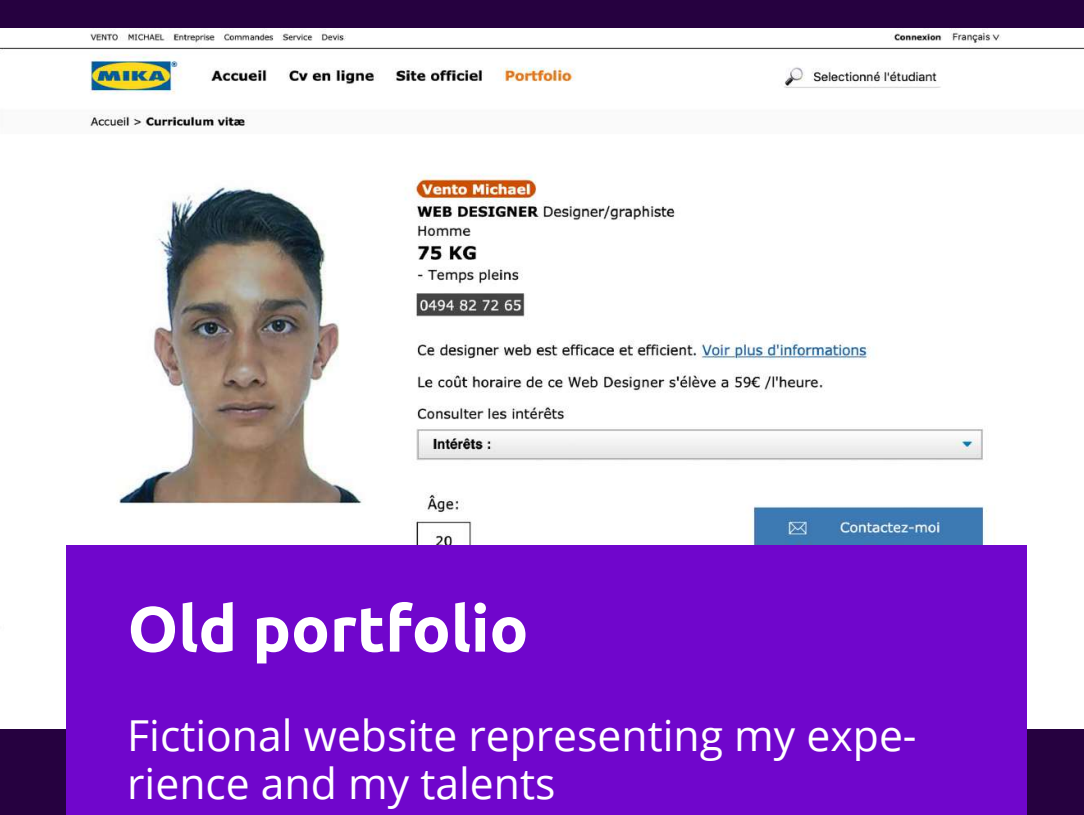

Old portfolio

The aim of the website is to faithfully **reflect the skills** as a webdesigner. To realize projects, you will see colors carefully chosen for this project.
